How to Make a QR Code for Spotify

1

Open your Spotify page

Open your artist profile, playlist, album, single, or podcast in the Spotify app or on the web.

2

Copy the share link

Use the three-dot menu, choose Share, then "Copy link" to get the open.spotify.com URL.

3

Paste it into EZQR

Paste the link into EZQR and the QR code preview generates instantly.

4

Download and test

Download as PNG, JPG, or SVG, then scan with your phone camera to confirm it opens the right page.
